

15-day ONLINE training course on Geospatial Technology for Archaeological & Heritage Studies

Archaeological Sciences Centre, IIT Gandhinagar

We aim:

- To provide hands-on experience of the geospatial technology in archaeology and cultural heritage documentation and studies.
- To train participants to create, visualise, interpret and analyse remote sensing and GIS data through lectures, demos, practical sessions and group projects.

Who will benefit:

Researchers, PhD scholars, faculty, and ASI officials working in the field of archaeology, geoarchaeology, cultural heritage studies, architecture and history.

Dec 7 to 23, 2023
